DETAILED ACTION

Reasons for Allowance

Claims 4-6, 8, 9 and 11-23 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 4 and 22, the closest prior art of record, Winslow (Fig. 2) does not disclose the following limitations: a constant current source coupled to the replica transistor.

Regarding claim 8, the closest prior art of record, Winslow (Fig. 2) does not disclose the following limitations: the bias control circuit includes a variable current source coupled to a control circuit. Regarding claims 11 and 23, the closest prior art of record, Winslow (Fig. 2) does not disclose the following limitations: the temperature compensation circuit includes a temperature proportional current source. Regarding claim 15, the closest prior art of record, Winslow (Fig. 2) does not disclose the following limitations: generating a current using a constant current source. Regarding claim 16, the closest prior art of record, Winslow (Fig. 2) does not disclose the following limitations: the process compensated DC bias voltage is substantially equal to a threshold voltage of the first transistor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry Choe whose telephone number is (571) 272-1760.
